INTERNATIONAL TRAVEL TRAILERS: 6 FLOORPLANS, 16 – 28

The Airstream International line redefines upscale and contemporary sleek sophistication. For designer styling as unique as you are, choose from two breathtaking interior decors.

From award-winning architect and designer Christopher C. Deam comes the Signature Series CCD. Inspired by the desire to visually echo the reflective exterior, this design combines a polished aluminum interior with luxurious

Wenge laminate. The effect is to open up the trailer to as much light as possible reflecting off the polished surfaces and creating a high contrast feast for the senses. Intuitive floorplans and spatial design do away with any sense of clutter without sacrificing charm. Modern color options and fabric choices complement the high contrast aluminum and laminate elements, creating a subtle but magical connection between the exterior and interior space.

▲ Back To Front View of Ocean Breeze Interior

▲ 27FB Galley Area with Signature Series Interior

For those who crave the oceanside experience, the International is also available in the light and airy Ocean Breeze decor. Offering watery, oceanic colors and a delightfully peaceful aura, you'll swear you can almost hear the sounds of surf every time you step inside.

Both styling packages feature "vista view" and panoramic windows, truly bringing the outside in. At night, strategically-placed recessed halogen lighting sparkles like starlight across the interior aluminum skin. Every color, shape, surface, and texture contribute to an atmosphere of relaxed modernism, with the perfect balance of luxury and streamlined efficiency that give this series its unmatched international flair that follows wherever the road takes you.

TIRED OF COMPANIES TRUMPETING THEIR NEW-FOUND “GREEN-NESS”? US TOO.

So we’re happy to note that we’re still taking the same environmentally friendly approach that has sustained us, and our planet, for nearly 80 years. Simply put, Airstream has been green as long as it has been silver.

Airstreams are designed to spend time on the road, not in the landfills. As such, nearly 70% of all Airstream trailers ever produced are still on the road! While other products are designed to wear out, Airstreams are designed to be handed down through the generations.

We also work with nature, not against it. Airstream’s founder, Wally Byam, knew that a low profile and a rounded, slippery shape would make for better towing in every respect. As a result, Airstreams enjoy a 20% advantage in

towing efficiency over standard “white box” trailers. And over the life of your Airstream, that’s a lot of fuel saved.

And should your Airstream come to the end of its life after many decades of service, its primary components (aluminum, steel, and wood) are easily recycled.

So go ahead and enjoy your Airstream with a sense of global responsibility, and comfort in the fact that you are adventuring in one of the most environmentally friendly travel trailers in the world. And always remember that Airstreamers leave a place better than they found it. *Silver is indeed Green.*

AIRSTREAM

TRAVEL TRAILERS

TO THE RESTLESS SPIRIT

The Airstream Travel Trailer beckons to those driven by an insatiable desire to see more, to do more, and to learn more. It calls to those who understand the allure of the open road, and the discovery of what lies beyond the next bend. And, it appeals to those who value independence and inspired design, and to those who recognize the quality and craftsmanship that have allowed one brand to stand the toughest test of all – *TIME*.

ADVENTURE, INSPIRED BY AIRSTREAM

Airstream, Inc.

Product information, specifications, and photography in this brochure were as accurate as possible at time of printing. Photographs may contain some features that are optional on your vehicle. Since we continually strive to improve our products, actual products may differ. Prices and specifications are subject to change without notice. All capacities are approximate and dimensions are nominal. Some features or options may be different or unavailable in Canada.

Vehicle Loading – Every effort has been made to provide the greatest number of options for the recreation vehicle owner. Along with these choices comes the responsibility to manage the loads that are imposed by the choices so that they remain within the manufacturer's specified chassis weight limits. Do not overload the recreation vehicle.

Dry Weights – Based on standard features; optional equipment not included. Net carrying capacity (NCC) determined by subtracting unloaded vehicle weight (UWV) from gross vehicle weight (GVWR) and includes fluids, options, and cargo. Liquid capacities and weights are approximations only.

Warning – This information is intended as a guide only. Weights of individual vehicles may vary. Consult your owner's manual for complete loading, weighing, and towing instructions.
