Spring is in the Air

It's been a long, cold, rainy winter. However, the winter is now behind us! It is now time to look towards using your Airstream and getting on the open road. Any questions on de-winterization please contact our service department. In other news, we were nominated by Airstream for consideration to receive the RV Business top 50 dealer award. After a long application process, we were chosen as one of the top 50 dealers by RV Business! This of course would not have been possible without the ongoing support from our customers. A big thank you to everyone!

Happy Airstreaming!

-The Staff At Colonial Airstream

The Clarke Expedition

When retired educators Jim and Val Clarke retired, they knew the open road was calling them. They packed their belongings and

their four legged companions Blonde and Black (pictured) and headed in

their 2003 34' Classic Limited Airstream. On the road for three straight months they covered over 16,000 miles, even making their way to Alaska! While in Alaska they saw bears feeding in streams, native eagles and used the ferry system. They learned many things along the way including: GPS systems don't always work due to mountain interference, carry tire changing equipment and road warning signs since many repairs need to be performed on the road and allow extra time for travel as maintaining highway speed is not always possible. On the way back home they visited the Airstream factory in Jackson Center, Ohio.

Beachcomber Rally

Patrick and I were invited to attend the Washington DC Unit's Fall rally. It was hosted by our customers, Sonia & Gerald McConnell, who own a 34' Classic Limited Airstream. We traveled in a preowned 19' Safari SE. The rally took place at the Beachcomber Campground in Cape May, NJ. This campground features over 100 acres of wooded park, lakefront activities, several pools and is only minutes from Cape May activities. The rally had a tropical theme (as you can see from our outfits pictured below.) A great time was had by all!

The Beachcomber campground is open April 15th to November 1st 2009. For additional information on the campground please visit <http://www.beachcombercamp.com> or call (609)-886-6035

YouTube

Since the summer we have been making Airstream product videos and posting them on YouTube. Featured videos include the 2009 Airstream Interstate, 23' FB Flying Cloud, 30' Classic slide out, 34' PanAmerica, 16' Design Within Reach and 28' Ocean Breeze. We also digitally converted an old VHS tape with an Airstream product video and posted it. To view our videos simply type in the Airstream product video you want to see in the YouTube search, or search our account name "Colonialairstream".

Any suggestions for future product videos, please let us know!

In the Numbers

Geret and Sandy Dubois recently purchased a new 2008 34' Classic S/O from our dealership on October 11, 2008 which they named "Silvia". They were not new to Airstreaming, as they were previous owners and several family members were also in the WBCCI. When you join the WBCCI you receive a set of red numbers to help identify you on the open road to other Airstreamers. They had several choices for a WBCCI number including Geret's Uncle John's number. After consideration, Geret and Sandy decided to let the WBCCI assign them the next available number. Imagine their surprise when they were given the number "10118", which is the date they bought Silvia. What a coincidence!

10118

Customer Photos

Connie & Neil Lindeman visited southern Colorado in their 25' Safari.

Andy, the Lindeman's road companion, enjoying his Airstream named "Tincup".

Don Keuch and Judy Eden enjoying their 20' Safari SE on a recent trip to Arcadia National Park in Maine.

2009 Airstream Interstate

The new 2009 Airstream Interstate is now available. This motorhome features a six cylinder Mercedes Benz diesel engine along with seating for eight passengers. Built on the Dodge 3500 chassis, with dual wheels in the rear, the new Interstate has an increased cargo carrying capacity.

Upgrades from previous model years include a

macerator pump, compressor style refrigerator, sound 20 radio system, electric awning and power step to name a few.

Additional pictures and details can be viewed on our website
