INTERSTATE 3500

Adventure, Inspired by Airstream

AIRSTREAM INTERSTATE 3500

▼ *Dual rear wheels provide a more stable ride without adding width to the vehicle*

▼ *Push-button automatically converts rear lounge to a bed*

INSPIRING ADVENTURE FOR NEARLY 80 YEARS

In 1931 Airstream began with one man's dream to create lightweight travel trailers that slipped cleanly through the wind. And with it was born another dream, one of new freedoms, new places, new experiences, and new friendships. It was a dream so powerful and so enduring that it did more than create a new way to travel; it created a new way of life shared by thousands upon thousands of families.

The Airstream Interstate 3500 continues the tradition of extraordinary design and hand-crafted quality that has made Airstream world famous. It combines the maneuverability and driving ease of a luxury car with the comfort and built-in conveniences Airstream is known for, all wrapped up in a fuel-efficient package. We think you'll find it's the perfect way to discover the adventure that awaits you around the next bend!

Bob Wheeler
President
Airstream, Inc.

▼ Kitchen includes convection microwave
and fold down faucet with integrated cover

▼ 5,000 pound towing capacity

**VALUE, STABILITY, DURABILITY...
AND BETTER FUEL ECONOMY.**
THESE ARE WHAT SET US APART –
AND HAVE FOR NEARLY 80 YEARS.

Few things in life have proven to be as durable as an Airstream. In fact, more than 65% of all Airstreams ever built (dating back to 1931) are still in service. This remarkable longevity has resulted in Airstream's equally impressive resale value.

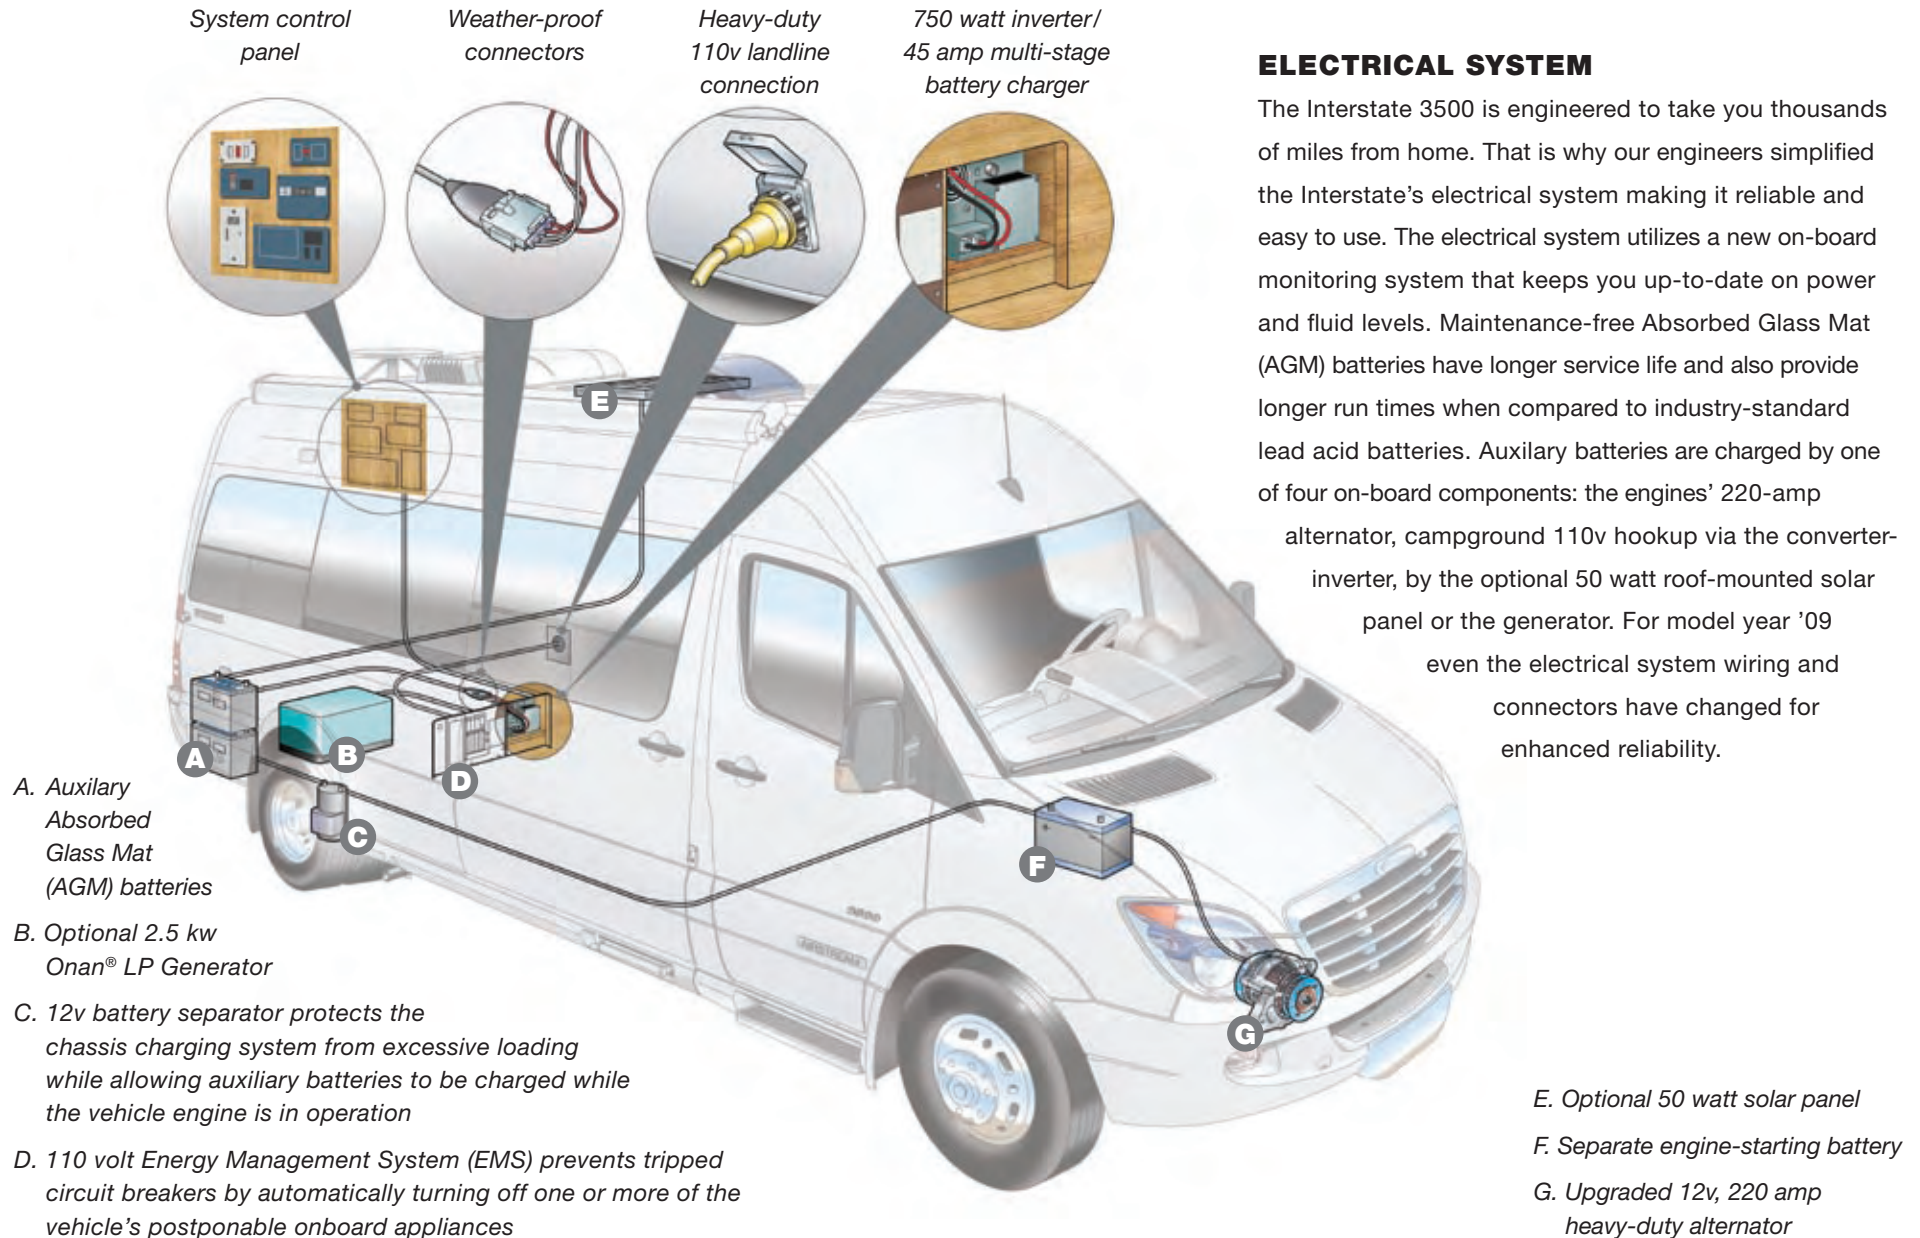

Airstream has been in the class "B" motorhome business since 1988 and has produced motorhomes since 1974. NASA has even chosen to use Airstream motorhomes to transport astronauts to the launchpad. The Airstream tradition continues with the Airstream Interstate 3500. The rigid unibody construction combines with a low center of gravity and standard Adaptive Electronic Stability Program (Adaptive/ESP) for a confidence-inspiring ride. Dual rear wheels provide better road handling in addition to increased hauling capability. And while Airstreams have always moved "like a stream of air," the Mercedes-Benz® Turbo Diesel engine creates a new level of efficiency.

18+ MPG*

A state-of-the-art Mercedes-Benz® CDI V6 Turbo Diesel delivers performance custom-tailored for today's adventures – exceptional fuel mileage with outstanding torque and a 5,000 pound towing capacity.

*Actual mileage may vary due to load, driving style, and overall conditions.

ADVANCED ENGINEERED SYSTEMS

ELECTRICAL SYSTEM

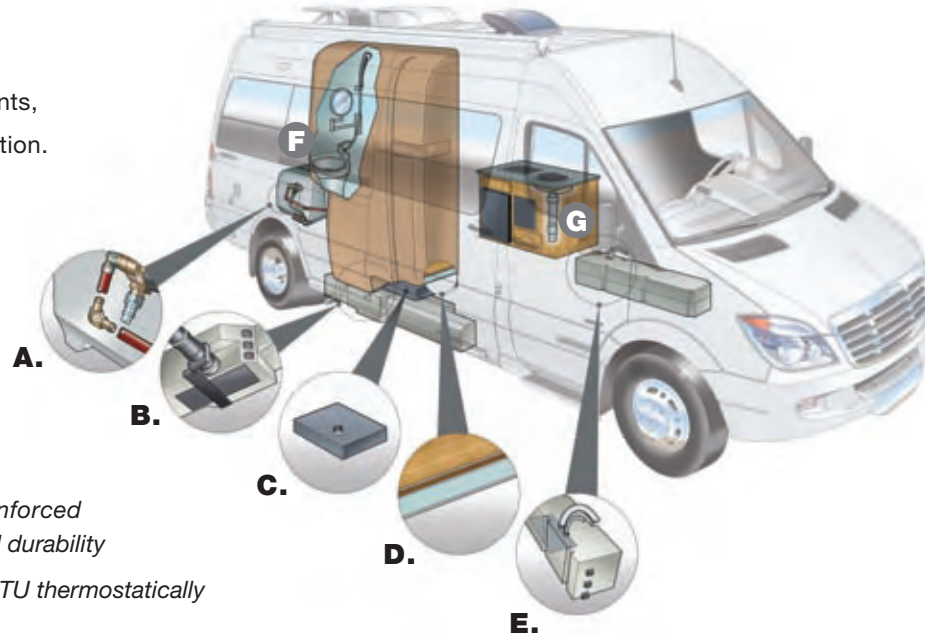

The Interstate 3500 is engineered to take you thousands of miles from home. That is why our engineers simplified the Interstate's electrical system making it reliable and easy to use. The electrical system utilizes a new on-board monitoring system that keeps you up-to-date on power and fluid levels. Maintenance-free Absorbed Glass Mat (AGM) batteries have longer service life and also provide longer run times when compared to industry-standard lead acid batteries. Auxiliary batteries are charged by one of four on-board components: the engines' 220-amp alternator, campground 110v hookup via the converter-inverter, by the optional 50 watt roof-mounted solar panel or the generator. For model year '09 even the electrical system wiring and connectors have changed for enhanced reliability.

BEAUTY IS MORE THAN SKIN DEEP

PLUMBING SYSTEM

Airstream is known for utilizing high quality components, and the Interstate 3500 plumbing system is no exception. Heavy-duty parts, generous storage capacities and innovative design combine for maximum comfort and lasting dependability on the road.

- A. Heavy-duty brass fittings
- B. Probeless tank sensors provide longer lasting, accurate and reliable tank levels
- C. 16 gallon blackwater tank
- D. One-piece fiberglass shower enclosure with reinforced composite sandwich floor for added strength and durability
- E. 27 gallon fresh water capacity, heated by a 281 BTU thermostatically controlled tank heating pad

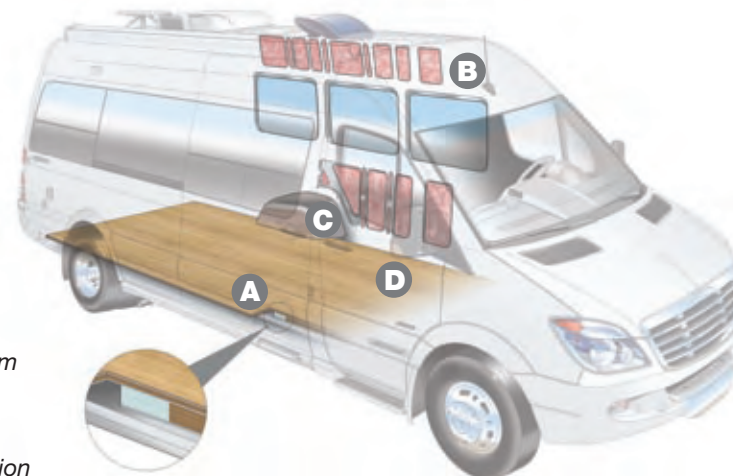

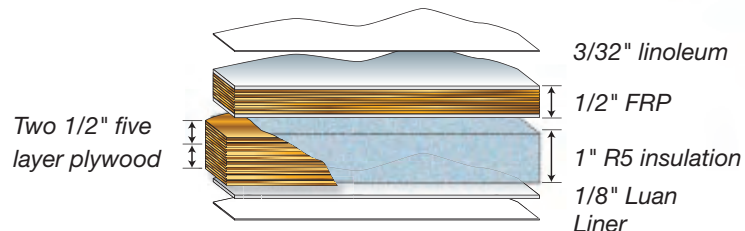

- F. Atwood XT combination gas/electric hot water heater provides nine gallons of hot water from a six gallon tank
- G. Hepvo® Valve is a self-sealing valve designed to prevent escape of graywater tank odor

FLOORING AND INSULATION

You'll experience quality with every step in the Interstate's well-appointed cabin. The durable laminated floor is more than 1.5-inches thick, offering maximum insulation, superior sound dampening and isolation from road noise. R7 insulation, even over the wheel wells, keeps you comfortable in every climate.

- A. Advanced engineered seven layer composite floor over 1.5" thick

- B. R7 fiberglass insulation throughout
- C. Foil-backed constrained layer dampening pads over wheel wells block road noise
- D. No-carpet flooring maximizes ease of cleaning

▼ Well appointed interior features eight secured seating positions

▼ Rear seating area with removable table

▼ Standup shower and toilet combination

The Interstate 3500 features an optional push button powered or manual awning system for hassle-free setup and stowage.

INTERSTATE 3500

With belted seating for eight and comfortable sleeping accommodations for two, the Interstate 3500 beckons you to explore new horizons in comfort. All seating features UltraLeather and UltraSuede covering, setting a new standard for practical luxury.

Solid handcrafted cabinetry continues Airstream's tradition of building highly functional and durable vehicle interiors. What's more, exceptional fuel economy, towing capacity and smooth drivability make the search for new adventures easier – and greener – than ever.

▼ Four rotating captains chairs with removable table

▼ Front living area with table removed

FEEL AT HOME AWAY FROM HOME

No matter how far you travel, the Interstate 3500 surrounds you with all the amenities of home.

The galley features a 1.2 cubic foot combination convection/microwave oven for quick convenience anywhere. A stainless steel two-burner cooktop is flush mounted under a designer glass cover. The robust 3.1 cubic foot refrigerator uses an AC/DC compressor that uses 90% less power than standard models.

All Interstate 3500 captains chairs swivel around for socializing and dining, while the rear lounge seating converts easily to a bed and back again with the simple touch of a button.

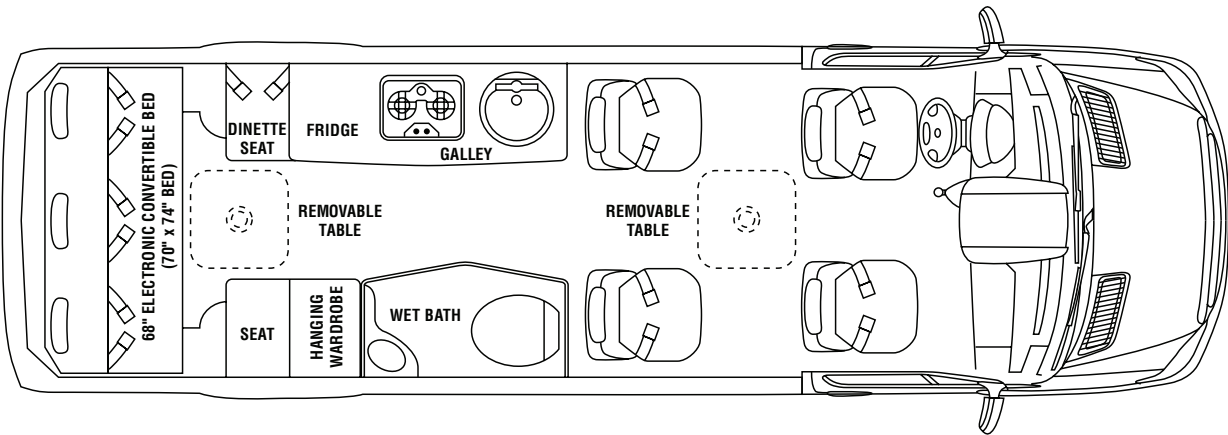

The Interstate 3500 also boasts a host of additional optional features well beyond others in its class, offering exceptional safety, comfort and control:

- Rear-back up camera with 5.5-inch LCD screen
- 19-inch flat panel LCD TV/DVD
- Roof-mounted 13,500 BTU high-efficiency Carrier® air conditioning unit
- Onan® 2.5 KW propane powered generator
- Manual or automatic awning

FLOORPLAN

The Interstate 3500 offers an adaptive floorplan with four different configurations and front- or rear- dining options to fit your style. Positions include forward facing bucket seats and a rear bench, a rear bed, and even social “club seating”, where the forward captains chairs swivel to face a center table when parked.

5,000 POUND TOWING CAPACITY

With the Interstate 3500 we left nothing out, so you don't have to leave anything behind. Take your boat, motorcycles, ATVs, or even an Airstream Travel Trailer with you. With its Mercedes-Benz® 3.0 Liter V-6 Turbo Diesel Engine, you'll find there's plenty of power to spare.

AIRSTREAM

INTERSTATE 3500

TO THE RESTLESS SPIRIT

The Airstream Interstate 3500 beckons to those driven by an insatiable desire to see more, to do more, to live more. It calls to those who understand the allure of the open road, and the discovery of what lies beyond the next bend. And it appeals to those who value independence and inspired design, and to those who recognize the quality and craftsmanship that have allowed one brand to stand the toughest test of all – time.

Product information, specifications, and photography in this brochure were as accurate as possible at time of printing. Photographs may contain some features that are optional on your vehicle. Since we continually strive to improve our products, actual products may differ. Prices and specifications are subject to change without notice. All capacities are approximate and dimensions are nominal. Some features or options may be different or unavailable in Canada.

Vehicle Loading – Every effort has been made to provide the greatest number of options for the recreation vehicle owner. Along with these choices comes the responsibility to manage the loads that are imposed by the choices so that they remain within the manufacturer's specified chassis weight limits. Do not overload the recreation vehicle.

Dry Weights – Based on standard features; optional equipment not included. Net carrying capacity (NCC) determined by subtracting unloaded vehicle weight (UVW) from gross vehicle weight (GVWR) and includes fluids, options, and cargo. Liquid capacities and weights are approximations only.

Warning – This information is intended as a guide only. Weights of individual vehicles may vary. Consult your owner's manual for complete loading, weighing, and towing instructions.
