

TST Tire Pressure Monitor System

TST Tire Pressure Monitor System will notify you of gradual pressure loss, sudden tire temperature increases, or rapid deflation in the tires. Provides real time pressure readings.

- Easy installation
- Accurate pressure readings
- Real time display of tire pressure & temperatures
- Includes 4 Sensors

Standard Sensors

Installed Cost: **\$575**

Flow-Thru Sensors

Installed Cost: **\$575**

2 Additional Standard Sensors

Installed Cost: **\$125**

2 Additional Flow-Thru Sensors

Installed Cost: **\$125**

Borg Dually Rear Wheel Valve Stems

Borg Dually Rear Wheel Valve Stems are designed to make tire pressure checks and inflation easy. Extends the length of the inner dual valve to reach the outer dual and the outer stem is curved making it easy to add air and check pressure.

Installed Cost: **\$575**
