

GasStop[®]

GasStop Emergency Shut-Off

The GasStop Emergency Shut-Off Valve is designed to shut-off the propane in the event of a major leak. Can be used to easily test for minor Propane leaks and with a built-in Gas level indicator you can make sure you don't run out of gas. The GasStop is highly engineered, easy to install, and has a 5 year warranty.

- Automatically shut-off gas supply
- Built-In gas level indicator
- Minor leak tester
- Easy to Install
- 5 Year Warranty (Valve)
