Barker VIP 3500 Power Jack

The VIP 3500 Power Jack has a lifting capacity of 3,500 pounds and a full 18" stroke. Jacks are sealed at the bottom of the inner tube to prevent moisture and dirt from entering. VIP jacks are equipped with 10 gauge hook-up wire and an in-line fuse to meet RVIA standards. All parts are aluminum, powder coated and zinc plated steel tubing, plastic, and stainless steel for maximum rust resistance.

- Waterproof up and down switch
